

PRODUCTS FOR ENERGY

Photo: Jørgen Eide

Load & Force

- Loadpins
- Tensiometers
- Compression cells
- Load limitation and recording
- Redundant and customized solutions
- Torque transducers

Contact-free and bearing-less encoder technology, Extremely high resistance to external influences such as mechanical shock, vibration, dust & liquids.

Sensors & Encoders

- Heavy duty encoders
- Vibration sensors
- Position sensors
- Liquid level sensors
- RPM pick up
- Temperature sensors
- Distance sensors

Tri-axial vibration and temperature output sensor.

Contactless linear position for harshest applications.

Condition monitoring & instrumentation

- Data collection (vibration)
- Vibration analysis
- Pump vibration monitoring
- Stroboscope
- Load limitation
- Signal condition

Customized solutions for force, load and torque applications.
