## OTHER SERVICES

Penny + Giles has many years experience in assembly work and coils for the coin mechanism industry.

- Recognition Coils
- Front Plates
- Sensor Coils
- Bezels
- Sub-assemblies

## HOW THEY WORK

Solenoids are commonly used to operate plastic gate devices inside coin mechanisms. They are used to accept, reject, sort and pay-out coins. The application requires fast speed, high accuracy, outstanding quality and low cost units.

## OUR EXPERIENCE

For more than 40 years, Penny+Giles has worked with a number of major clients around the world to supply standard and custom solenoid solutions for the Vending and Gaming machine markets that demand high quality, reliable products at a cost-effective price.
