

The I150 is a weight indicator with a high velocity and precision of conversion A/D housing in Stainless Steel.

With anti-vibration software is ideal for use in industrial platforms and weighing systems from 1 to 4 load cells. CE approval C3.

Dimensions in mm

CHARACTERISTICS

- A/D Conversion with precision 1/30000
- Software designed to reduce the effects of possible vibrations
- Monitoring and configurable range from zero (automatic or manual)
- Configuring the intensity, range and stability time digital filtering.
- Counting function with protection from the value of the average unit weight in case of disconnection.
- Alarm low battery warning and auto power off when it reaches very low levels.
- Display LCD of 6 digits and 6 state Leds.
- Power Supply 220VAC.
- Maximum load cells: 4 of 350Ω

FUNCTIONS

- Weight-Tare and Counting-pieces.

I/O SECTION

- RS232 output for PC connection.
